

Title:- Pen-friend

- **Introduction to the Project and the Problem Statement.**

This project is a portal for online friendship. As now a days situation of mental is at worst level. One does not have person to share his/her feeling in fear of being judged. This platform will provide a simple and legitimate platform for meeting new peoples and have a opportunity of share feeling if you want without being judged.

- **The main objective of the project**

Main objective of this project to help people in reducing mental stress. An opportunity to open their heart with someone without being judged.

- **Hardware & Software used**

HTML: - It is used for giving eye catching look to the website. And also providing easy to use GUI.

CSS: - CSS is cascading style sheet which is used to give designer look to HTML using the external file.

Visual Studio: Microsoft Visual Studio is a powerful IDE that ensures quality code throughout the entire application lifecycle, from design to deployment. Whether you're developing applications for SharePoint, the web, Windows, Windows Phone, and beyond, Visual Studio is your ultimate all-in-one solution.

- **Team Details**
